The public hearing was scheduled for the purpose of hearing citizen comments on Resolution No. 16.25 – Discontinuing the Addition of Fluoride to the Water in the Village of West Salem Water Utility.

Numerous citizens spoke in opposition of the discontinuation of adding fluoride to the Village of West Salem water supply. The reasons for oppositions included:

- Fluoride addition to the water supply is safe, effective, and proven to support the tooth enamel from the inside, resulting in fewer dental procedures, fewer cavities, and overall better general dental health
- Children and the elderly benefit the most, especially those who may have limited financial resources or disabilities
- Fluoride in toothpaste is not and does not work the same as systemic fluoride, such as that added to the water supply
- Negative affect of poor dental health on the body as a whole
- Overall limited access to specialized dental care in the area
- No supported, credible source proving fluoride toxicity as a result of being added to the water supply

Motion by Trustee Leicht, seconded by Trustee Curtis to close the public hearing at 7:26 p.m. Approved by unanimous voice vote.
